

# Intelligent Road

safety by arctic know-how

Do You Want to Help

# Reduce Accidents

on the Arctic

# Roads?

# WE DO!

## **THE GOAL**

To prevent accidents and increase safety on the arctic roads of Northern Scandinavia in the long term.

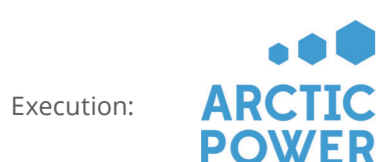

## **THE INTELLIGENT ROAD SYSTEM**

Provides road users with real-time road weather information collected from vehicle-sensors, road-side technology, road-weather stations and weather forecasts.

## **THE PARTICIPANTS**

Partnering research organisations and businesses from Finland and Sweden with exclusive know-how, testing facilities and technology.
